Proven track record of integrating payment gateways, optimizing MySQL databases, and managing production deployments. Passionate about writing clean, efficient code and solving complex technical problems to deliver impactful business solutions.

CORE TECHNICAL SKILLS

- Programming Languages: PHP, JavaScript, Python, C, HTML, CSS
- Frameworks & Libraries: CodeIgniter 3, Bootstrap, jQuery, MVC Architecture
- Databases: MySQL, MongoDB, phpMyAdmin, Database Optimization
- Developer Tools: Git, GitHub, RESTful APIs, Linux Server, Composer
- Technologies: Razorpay Integration, SMTP Configuration, Authentication Systems

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Dizaart Systems OPC Pvt Ltd | Greater Noida, India | Jan 2026 – Present

Software Developer Intern

Dizaart Systems OPC Pvt Ltd | Greater Noida, India | Jul 2025 – Dec 2025

PROJECTS

Bihar AI Summit | Live: biharaisummit.com
Technologies: PHP, CodeIgniter 3, MySQL, Razorpay, SMTP
- Developed and deployed an event registration platform that processed 500+ user registrations and payment transactions within the first month, reducing manual registration work by 80%.
- Integrated Razor pay for secure payments and executed automated email confirmation workflows.
- Managed the complete development lifecycle from requirements gathering to production deployment.

Rentellor - Property Rental Management System | Live: dizaartdemo.com/demo/Rentellor
Technologies: PHP, MySQL, Bootstrap, JavaScript
- Created a property listing and booking platform with distinct user and admin interfaces.
- Enforced role-based access control to manage property listings, bookings, and user accounts.
- Created a responsive frontend and efficient backend workflows for seamless property rental management.

ShopNest - E-Commerce Platform | Live: dizaartdemo.com/demo/shopnest
Technologies: PHP, MySQL, Bootstrap, JavaScript
- Developed a full-stack e-commerce website with comprehensive product management and shopping cart functionality.
- Applied secure user authentication and session handling for personalized user experiences.
- Optimized MySQL queries and indexing, reducing product search response time by ~40% and improving overall page performance.

EDUCATION

Bachelor of Technology in Computer Science
ABES Institute of Technology, Ghaziabad, India
2022 – 2026 | CGPA: 7.0/10
Senior Secondary
Bihar School Examination Board, Sasaram, India
2018 – 2020 | Percentage: 76%

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Certification: Data Science for Engineers (IIT Madras)
- Consolation Prize Winner: CODEATHON 3.0 Hackathon
- Improved and deployed 4+ live production websites with payment gateway integration
